C. V. GRANT, Lessee

POR the final climax of CARat the Empire Theatre Monday, May 15, Mr. Fox engaged the services of the most reckdare-devil, death-defying man, that it was possible to mind, for a jump of 83 feet on horseback at Au Sable Chasm, Port Kent, N. Y. In the final scenes of CARMEN, after Jose kills CARMEN, he escapes in the woods, and instead of dying by stabbing himself, he races over the roads until he reaches the top of the Chasm, where the horse jumps 83 feet through the air, carrying Jose with him to

In the moving picture which you will see in CARMEN, the horse makes two loop-the-loops and the rider never leaves his back. It was one of the most thrilling scenes ever enacted for the pictures. One of the camera men fainted and was unconscious for twenty minutes, but fortunately they had four other cameras playing on the scene. The name of the man who made the leap is Mr. Art Jarvis. He broke his leg and is laid up in Flower Hospital, New York. The horse, however, escaped uninjured. The animal was formerly with Barnum & Bailey's circus and was named Toreador, and was specially imported and taken to Au Sable Chasm in a special express car, to make the

Soapsuds form a good fertilizer for ishes and young plants.

# t here it is

Things that were impossible yesterday are today's accomplished facts.

Somewhere in the world someone with special knowledge, special experience. special equipment, gets ready and then startles the world by accomplishing the seemingly impossible.

Almost everyone said that a complete automobile of beautiful design, fine finish, the ideal small, light, economical car, built with quality materials and absolutely completely equipped, could not be built to sell for \$615.

And but for Overland special knowledge, special experience and special equipment, it probably would still be one of the impossibilities instead of an accomplished fact.

Probably no other organization in the world can produce the quality and efficiency equal of this car to sell at anywhere near so low a price.

Certain it is that no other organization is doing so.

And no other car ever produced seems so exactly to suit the requirements of so varied a lot of people.

People of wealth, people of modest means-

People of long automobile experience-

People who never before owned a car-

All find in the small, light \$615 Overland their ideal car.

It has the beauty, comforts, conveniences, power and complete equipment which everyone wants.

Yet it is inexpensive to buy and economical to operate.

See the Overland dealer and get acquainted with this car.

But act now, as this car stands alone and the rush to own them is amazingdelayed action is almost sure to mean a long wait for delivery.
